

Agenda The Propeller meeting 5, 24 November 2010

Chairman: Paul

Secretary: Rokus

Writer: Bram

Main goal: Solving final CAD-problems and picking a design to submit tomorrow.

Opening (09:45)

- Absence
- Agenda
- Minutes past meeting
- Announcements
 - o Tutor
 - o Group members

Working on the case (09:50)

NX5 Design

- Discussing selfstudy; how far is everyone in modeling their propeller?
- Problems encountered during modeling:
 - o Holes to be drilled in the propeller (Stijn + Tom)
 - o Unwanted lines in surface (Ivo)
 - o Crack in blends (perhaps same problem as Ivo?) (Paul + Paul)
- Choosing the final design to be milled.

Strength

- Results/conclusion

Formulating new Selfstudy (10:30)

- Finishing last CAD-designs (perhaps help other groups with problems)
- Submitting designs on Studyweb, does a short report has to be written?
- ..

Evaluation + "Vlaoi" (10:40)

Closure (10:45)
